

## Permission to Use Visuals and Quotations

(please **print names** except for signature at end)

I, \_\_\_\_\_, parent/guardian of \_\_\_\_\_, agree to let MathPath use publicly for publicity purposes photographs (or other visual media of any sort, e.g., videos) showing my child. For instance, such photographs may be posted on the MathPath website or printed in brochures. I understand that such visual media are intended to show students engaged in typical activities of the camp. I also understand that MathPath will not identify my child by name in any posted media without additional permission from me, obtained by contacting me directly.

Similarly, MathPath sometimes uses quotations from students for publicity purposes. These quotations have appeared in print and on our website, but could appear in any medium for presenting quotations, including audio clips. I understand that MathPath will not identify my child by name for any such quotation without contacting me directly for permission. I also understand that most student quotations are taken from the anonymous camp surveys. In this case no name is available for use and no permission is necessary or possible.

I further understand that MathPath may grant other organizations permission to display such visual media or quotations, but only under the same conditions: no identification by name without your direct permission.
